

The Farley Professional Lecture Series

EXPERIENTIAL WORK IN TREATING ADDICTION

Eleanor Woollard, LPC, CSAC
Associate Executive Director of
Clinical Operations

Susan Glover, LPC
Senior Coordinating Therapist

About the presenters: Both Eleanor and Susan have a combined 35 years of experience working in addiction treatment. Their work with experiential treatment modalities has helped serve hundreds of patients and families struggling with substance use disorders.

Friday, September 24, 2010

9:00 AM - 12:00 PM

**Farley Center at
Williamsburg Place
5477 Mooretown Road
Williamsburg, VA**

NO CHARGE

**3 SACAVA Credits Provided
Networking Opportunity**

Learning Objectives:

At the conclusion of this workshop, participants will:

1. Learn how defense mechanisms become entrenched in the addictive process.
2. Explore how utilizing non-linear modalities can assist the addicted patient in moving past defenses which, unattended, can precipitate relapse.
3. Review a map of the personality which enables the addicted patient to cognitively and emotionally integrate the 12 Step process into long term recovery.
